

These are the steps to install the RSCCC SQL Interface on the Food Service Server. If you want the instructions for installing the software on the server use

<http://www.systemsdesignusa.com/SDsite/manuals/RSSQLInstallationInstructions.pdf>

**Backup any existing files:**

```
SAVE ckrssql.jcl demoinq.jcl demoupdt.jcl excommands
```

**Login to Rackspace and download the necessary files:**

```
ftp.rack
get ckrssql.jcl
get demoinq.rssql.jcl
get demoupdt.rssql.jcl
get excommands.rssql
```

**Set variables in /usr/local/bin/.localvars.sh.data**

```
#
# Demographic Interface
#
DGIF=RSSQL
# Demographic Interface directory
RSSQL_DIR=/home/download
# Demographic Interface filename
RSSQL_FILE=CAFEXP.ALL.TXT
# Demographic Interface printer
RSSQL_PRT=lp00
# Demographic Interface secondary printer (only if second copy if wanted)
#RSSQL_PRT2=lp998
```

**Fix file permissions**

```
chmod 755 ckrssql.jcl demoinq.rssql.jcl demoupdt.rssql.jcl
```

**Install and Compile Program**

```
cd ../25
SAVE SCH220RSSQL.CBL SCH206RS3C.CBL SCH206TX.CBL
ftp.rack
get SCH220RSSQL.CBL
get SCH206RS3C.CBL
get SCH206TX.CBL
exit
./comp SCH220RSSQL SCH206RS3C SCH206TX
```

**Create fin and test**
